

## [Taino\_News] MANY DEAD, WOUNDED, AND DISAPPEARED IN OAXACA

The 23 day old teacher strike/demonstration in Oaxaca was brutally broken up today by approximately 3,000 policemen who beat everybody in sight (elders, children, and women included), shot people and destroyed vehicles and other property.

Even though the numbers differ we have received word that among the many atrocities are at least 2 dead children and possibly up to 9 teachers who were killed, many were wounded and dozens arrested (some taken in unmarked cars to unknown places = disappeared) .

The free radio (Radio Planton) there was key announcing when the government forces were rolling in and the police broke in and destroyed the equipment. Many teachers have returned to the place where they have been demonstrating and the police is regrouping.

Subcomandante Marcos is URGENTLY asking all the Zapatista supporters to condemn this new act of repression by the State in statements and actions. The e-mail below has a detailed account of what happened and has the e-mail addresses of the gov officials that should be contacted in protest:
